

Microscopes and Accessories

dhs Solution **plans, organises** and **provides** all the components for the entire QS workflow in your company – we are a **general contractor for professional imaging**.

One of our **areas of expertise** is **planning** and **procuring the hardware**, so that all image processing tasks are successfully resolved in a results-oriented manner.

This includes:

- PC systems
- Cameras / Macroscopes
- Converter
- Microscopes / optical systems

Microscopes

As a **microscope dealer** we offer high-end devices for material analysis in both industry and research. These include, in particular, well-known manufacturers such as ZEISS, LEICA and MEIJI.

All microscopes are

- **configured**
- **deliver and built-on locally**
- **maintained**

by us.

Microscope accessories

- illumination
- objectives
- eyepieces
- controler
- tables
- sample holders
- object micrometers

ZEISS Axio Vert

Information in the overview

- Top-quality mechanical and optical components
- A single point of contact and supplier for an entire system
- Technical interoperability is guaranteed for all microscopes and dhs components (dhs-MicroCams® and dhs Image Data Base, independent of the interface)
- The right microscopes and accessories to suit all budgets and requirements
- Maintenance and repair

dhs Image Data Base

Our dhs Image Data Base is **independent of interface** and therefore **suitable for all microscopes**, cameras and controller.

Thereby you have the possibility

- to read out or set calibrations / magnifications
- to control lighting systems automatically
- to create and fix microscope parameters

Our **dhs-MicroCams®** are also compatible with all microscopes.

One supplier for a complete optical system

- **individually configured**
- **reliably delivered and installed**
- **rotationally maintained**
